McMurtry-Chubb received the 2021 Thomas F. Blackwell Memorial Award for Outstanding Achievement in the Field of Legal Writing. The award is presented annually to a person who has made an outstanding contribution to improve the field of Legal Writing. One of the most common questions that prospective law students ask is "What is the best major to prepare me to study law?" The most common answer given by college advisors is "Any major." The perception of law school as a "free for all" accessible to students of any major sets students up for the confusion they experience in learning the law and legal skills. When students begin their legal education, they are taken out of their undergraduate and graduate disciplines and placed into the legal discipline without context for how their disciplinary education relates to their legal education. This leads to many of the frustrations that new law students have with law school, especially in their legal writing classes. *Legal Writing in the Disciplines* re-conceptualizes law in its disciplinary context. The text is designed to effectively communicate legal analysis and writing skills to pre-law and new law students using the language of their undergraduate and graduate majors. Legal writing is disciplinary writing, not just another form of technical writing. Law school is a disciplinary community. Integration into any disciplinary community occurs through the processes of reading and writing. The first chapter of the text details all aspects of the processes used to create practical legal writing (case briefs, notes, outlines and MindMaps, legal memos, legal briefs, exam outlines and exam answers). The five remaining chapters are divided into five broad disciplinary categories: Science, Social Science, Arts,

Humanities and Business. Each chapter contains discipline-specific instruction on creating the different types of legal writing. The chapter sections lead the reader through the resolution of a legal problem through legal writing and provide answers for self-check with discipline-specific explanations on an interactive CD-ROM. The CD-ROM allows students to load PDFs (the materials, exercises, model answers, and case files to which the text refers) onto an iPad or other tablet for flexibility and ease of use in practicing legal writing skills. Additionally, the materials, exercises, and model answers are annotated in color with discipline-specific explanations to guide students as they assimilate new legal writing skills. A teacher's manual accompanies the text and features semester and quarter course planning options, learning outcomes and performance criteria for each week, lecture notes for each week, in-class exercises and supporting materials, and assessment rubrics for all assignments and skills. The rubrics are keyed to the weekly learning outcomes and performance criteria. An interactive CD-ROM with case files for a legal memo, legal brief, and other instructional materials is included. This book condenses my thirty years of experience trying to achieve self-mastery. It includes steps that you can follow to improve your self-mastery. How to think clearly, act purposefully, overcome any obstacle, and find peace & happiness along the way. Marcus Aurelius (121-180 CE) was one of the few true philosopher-kings in history. His father died when Marcus was three. At age fifteen, he was adopted by Emperor Antoninus Pius, putting him in the line of succession; and at forty, Marcus became a reluctant emperor of the Roman Empire. Marcus was reluctant because the demands of being emperor--on top of the temptations of wealth and power--seemed incompatible with his true ambition: to be a humble student of philosophy. Over time, though, Marcus worked out a practical philosophy that kept him grounded amidst the stresses and excesses of palace life. That's why his philosophy is so relevant to us today, in the modern world. The *Meditations* are Marcus' personal journal entries. They were not intended for publication, but to remind Marcus himself of his principles and priorities. As a result, they are intimate, direct, and extremely useful. This new edition is rendered in contemporary English, with a foreword, by Sam Torode. A companion volume, *The Manual: A Philosopher's Guide to Life*, is also available from Ancient Renewal. *The Complete Guide to Memory Mastery* will help you think more effectively to achieve long term success. The easy and effective techniques mentioned in this book will help you get rid of post-it-notes and to-do lists to remember names, faces and even phone numbers! The Author also introduces the link and peg systems for effortless everyday living. Some of the fascinating memory aids here will teach you how to: Develop Your memory Think effectively Strengthen your will power Make more money With these proven techniques, you will enhance your memory and unlock the Secrets of Mind Power.
