Science Focus Jun 06 2021 The Science Focus Second Edition is the complete science package for the teaching of the New South Wales Stage 4 and 5 Science Syllabus. The Science Focus Second Edition package retains the identified strengths of the highly successful First Edition and includes a number of new and exciting features, improvements and components. The innovative Teacher Edition with CD allows a teacher to approach the teaching and learning of Science with confidence as it includes pages from the student book with wrap around teacher notes including answers, hints, strategies and teaching and assessment advice.

How Green is My Library? May 17 2022 Provides tools for library and facilities managers, boards of trustees, staff, and students to evaluate the sustainability of their facilities and operations.

Levels of Syntactic Representation Jun 18 2022 The architecture of the human language faculty has been one of the main foci of the linguistic research of the last half century. This branch of linguistics, broadly known as Generative Grammar, is concerned with the formulation of explanatory formal accounts of linguistic phenomena with the ulterior goal of gaining insight into the properties of the 'language organ'. The series comprises high quality monographs and collected volumes that address such issues. The topics in this series range from phonology to semantics, from syntax to information structure, from mathematical linguistics to studies of the lexicon.

Parametric Syntax Jan 01 2021 The architecture of the human language faculty has been one of the main foci of the linguistic research of the last half century. This branch of linguistics, broadly known as Generative Grammar, is concerned with the formulation of explanatory formal accounts of linguistic phenomena with the ulterior goal of gaining insight into the properties of the 'language organ'. The series comprises high quality monographs and collected volumes that address such issues. The

topics in this series range from phonology to semantics, from syntax to information structure, from mathematical linguistics to studies of the lexicon.

Going Green: Implementing Sustainable Strategies in Libraries Around the World Jan 25 2023 This publication examines aspects of reducing the ecological footprint in libraries' workaday operations as well as the social role and responsibility of libraries as leaders in environmental sustainability. The theoretical background and practical applications of contributions made by worldwide libraries to the United Nations 2030 Sustainable Development Goals (SDGs) are discussed. General articles and research studies from Finland, Germany, Portugal, and Brazil illuminate libraries' contributions to the SDGs. Case studies from Sweden, Kenya, Germany, Ukraine, China, and Serbia highlight challenges and opportunities in implementing sustainable approaches in public libraries. Examples of best practice from academic libraries in Hong Kong, Cameroon, Germany, Uganda, USA and Kenya, are presented. All papers published in this book are selected from the best papers of the ENSULIB Satellite Meeting 2017 in Berlin, the ENSULIB/Public Libraries Section's Open Session at the IFLA Conference 2017 in Poland, and from the IFLA Green Library Award 2017. All articles are written in English.

Social Inclusion and Economic Development in Latin America Oct 18 2019 Poverty and inequality in Latin America are easily recognizable in the faces of women, Afro-descendants, the indigenous, people with disabilities, victims of HIV/AIDS, and other groups outside the societal mainstream. Social Inclusion and Economic Development in Latin America reviews the common features of these excluded populations, including their invisibility in official statistics and the stigma, discrimination, and disadvantages they have long endured. But it also

examines the region's inclusionary policies and programs that can improve access by these groups to the quality social services and economic and political resources these groups need to level the playing field. Case studies examine ethnic and racial political organization, gender quotas, and labor markets across the region, and social exclusion in Brazil, Honduras, Guatemala, Mexico, and Peru. Comparative studies summarize social inclusion policies of both the European Union and selected countries on the Continent.

On the Content of Empty Categories Mar 03 2021 The architecture of the human language faculty has been one of the main foci of the linguistic research of the last half century. This branch of linguistics, broadly known as Generative Grammar, is concerned with the formulation of explanatory formal accounts of linguistic phenomena with the ulterior goal of gaining insight into the properties of the 'language organ'. The series comprises high quality monographs and collected volumes that address such issues. The topics in this series range from phonology to semantics, from syntax to information structure, from mathematical linguistics to studies of the lexicon.

Sentencing and Sanctions in Western Countries Sep 21 2022 This collection of original essays surveys the evolution of sentencing policies and practices in Western countries over the past twenty-five years. Contributors address plea-bargaining, community service, electronic monitoring, standards of use of incarceration, and legal perspectives on sentencing policy developments, among other topics. *Sentencing and Sanctions in Western Countries* provides a range of scholars and students excellent cross-national knowledge of sentencing laws and practices, when and why they have changed over time, and with what effects.

Gapping Apr 04 2021 The architecture of the human language faculty has been one of the main foci of the linguistic research of the last half century. This branch of linguistics, broadly known as Generative Grammar, is concerned with the formulation of explanatory formal accounts of linguistic phenomena with the ulterior goal of gaining insight into the properties of the 'language organ'. The series comprises high

quality monographs and collected volumes that address such issues. The topics in this series range from phonology to semantics, from syntax to information structure, from mathematical linguistics to studies of the lexicon. Binding and Filtering Oct 30 2020 The essays collected in this book result from recent work in trace theory, the starting point being Chomsky's proposals to permit syntax to over-generate profusely and then to provide most of the significant reduction in the form of a system of filters and constraints on logical form. They all address various aspects and implications of his article, *On Binding*, which is reprinted here. Equally important, the essays demonstrate the applicability of Chomsky's proposals to a number of different languages. Heny writes that "editorial work on the volume brought me to a realization of the far-reaching implications of the approach to linguistic analysis underlying Chomsky's *On Binding*. It constitutes a radical break with his previous work, of a very exciting and promising kind." Heny's Introduction goes on to describe the shift in Chomsky's position over the last ten years in lucid and straightforward fashion, identifying the striking new properties of this framework and making the collection generally more accessible to a wider audience. Contents: Introduction; *On Binding*, Noam Chomsky; *Finiteness and Boundedness in Turkish*, Lelan George and Jaklin Kornfilt; *Nominative Marking in Italian Infinitives and the Nominative Island Constraint*, Luigi Rizzi; *Empty Subjects, Case and Agreement and the Grammar of Dutch*, Eric J. Reuland; *Binding, Quantifiers, Clitics and Control*, Richard S. Kayne; *Government and Relativisation in Celtic*, Stephen Harlow; *Germanic Word Order and the Format of Surface Filters*, Joan Maling and Annie Zaenen; *Ouechua Word Structure*, Pieter Muysken; Index. Frank Heny is Professor of Linguistics and the Philosophy of Language, and Head of the Institute of General Linguistics at the University of Groningen, Holland. Distributed in North America for Croom Helm Publishers Ltd.

The English of Francophone Speakers in Cameroon Nov 23 2022

Scientific Study from the year 2019 in the subject Didactics - English - Pedagogy, Literature Studies, University of Yaoundé 1 (Faculty of Arts), language: English, abstract: This work, which describes the English of these francophone users, comprises an introduction, seven chapters grouped into two parts, and a conclusion. The introduction overviews the historical background of the country and its geographic and linguistic situations. Part One deals with the didactics of English in Cameroon; it comprises three chapters which take up in turn the languages in the education system of the country, the teaching of English in primary and secondary schools as well as tertiary level institutions. Part Two, which tackles the description of the English speech of francophone users, first outlines the research design. Then it takes up the sound system of francophone English, focusing on the realisations of consonants and vowels, and stress placement. Next it examines the vocabulary of this variety of English and finds that it is characterised by an excessive use of direct loan, calque, and false friends. This is followed by a description of the morpho-syntactic features of the variety. The frequent features identified can be grouped under 12 major categories of items, i.e., verb tenses, articles, the plural form in noun phrases, pronouns, word order, subject-verb agreement, adverbs, prepositions, question formation, negation, verbs in embedded clauses, and serial verbs. Lastly, drawing from the findings outlined in these linguistic analyses, the researcher makes an appraisal of Cameroon's French-English official bilingualism policy. The various measures taken over the years by Government to

parquesdecampismo.pt

promote official bilingualism are evaluated first. Then the consequences of the failure of this policy are considered. Finally a way forward is proposed: there is a need to adopt a new syllabus purposely designed to enhance bilingual competence among francophones in the country. Francophone English as Kouega notes, is a dialect of English that is developing in a number of Expanding Circles countries where French has hitherto been the sole or primary medium of instruction. In Cameroon, francophone children learn English as a subject from primary school alongside other subjects like geography, which are taught in French. English is taught as a subject from the primary to the tertiary level of education. It is taught in all schools as part of the implementation of the country's French-English official bilingualism policy that was adopted in 1961 when French Cameroon and English Cameroon united to form a federal state.

The Challenge of a Model Penal Code Feb 02 2021 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Bio-Inspired Computing and Applications Nov 11 2021 The three-volume set LNCS 6838, LNAI 6839, and LNBI 6840 constitutes the thoroughly refereed post-conference proceedings of the 7th International Conference on Intelligent Computing, ICIC 2011, held in Zhengzhou, China, in August 2011. This volume contains 93 revised full papers, from a total of 281 presentations at the conference - carefully reviewed and selected from 832 initial submissions. The papers address all issues in

Advanced Intelligent Computing, especially Methodologies and Applications, including theories, methodologies, and applications in science and technology. They include a range of techniques such as artificial intelligence, pattern recognition, evolutionary computing, informatics theories and applications, computational neuroscience and bioscience, soft computing, human computer interface issues, etc.

Issues in Italian Syntax Apr 16 2022 The architecture of the human language faculty has been one of the main foci of the linguistic research of the last half century. This branch of linguistics, broadly known as Generative Grammar, is concerned with the formulation of explanatory formal accounts of linguistic phenomena with the ulterior goal of gaining insight into the properties of the 'language organ'. The series comprises high quality monographs and collected volumes that address such issues. The topics in this series range from phonology to semantics, from syntax to information structure, from mathematical linguistics to studies of the lexicon.

Maggie for Hire Sep 09 2021 When monsters appear in Los Angeles, Maggie MacKay is on the job. No one is better at hauling the creepy crawlies back where they belong. No one, that is, except her dad, who disappeared without a trace in the middle of an assignment. Now an elf named Killian has shown up with a gig. Seems Maggie's uncle is working with the forces of dark to turn Earth into a vampire convenience store, serving bottomless refills on humans. The only hope for survival lies in tracking down two magical objects and a secret that vanished with Maggie's father. **WARNING:** This book contains cussing, brawling, and unladylike behavior. Proceed with caution.

Criminal Procedures Mar 15 2022 Buy a new version of this Connected Casebook and receive access to the online e-book, practice questions from your favorite study aids, and an outline tool on CasebookConnect, the all in one learning solution for law school students. CasebookConnect offers you what you need most to be successful in your law school classes - portability, meaningful feedback, and greater efficiency. This loose leaf version of the Connected Casebook does not come with a binder.

Criminal Procedures: The Police: Cases, Statutes, and Executive

parquesdecampismo.pt

Materials, Fifth Edition is a comprehensive treatment of criminal procedures that depicts the enormous variety within criminal justice systems by examining the procedures and policies of both federal and state systems and looking at sources of law and doctrine from multiple institutions. The Fifth Edition surveys the constitutional, statutory, and administrative doctrines and practices that shape how the police interact with citizens and investigate crimes; examines the procedures and policies of both federal and state systems, as well as the assumptions and judgments underlying each, and how these systems interrelate and sometimes compete with one another; looks at sources of law and doctrine from multiple institutions, including U.S. Supreme Court cases, state high court cases, statutes, rules of procedure, and police and prosecutorial policies; explores the influence of politics within various institutions of law enforcement and the role of public pressure on policing and procedure with regard to terrorism, drug trafficking, domestic abuse, and the treatment of crime victims; investigates the impact of criminal procedures on law enforcers, lawyers, courts, communities, defendants, and victims through the use of interdisciplinary materials. Key Features of the New Edition: Tracks the major shifts in jurisprudence regarding cell phones, GPS tracking, and other technological aids to criminal investigations. Reflects major developments in judicial and non-judicial regulation of photo identification procedures. Includes coverage of recent U.S. Supreme Court decisions regarding ineffective assistance of counsel during plea negotiations. Surveys recent examples of community policing strategies. Reflects current debates about prosecutorial declinations in the context of marijuana possession charges. Traces the impact of the "innocence movement" on the regulation of criminal investigations.

CasebookConnect features: ONLINE E-BOOK Law school comes with a lot of reading, so access your enhanced e-book anytime, anywhere to keep up with your coursework. Highlight, take notes in the margins, and search the full text to quickly find coverage of legal topics. PRACTICE QUESTIONS Quiz yourself before class and prep for your exam in the Study Center. Practice questions from Examples & Explanations,

Emanuel Law Outlines, Emanuel Law in a Flashcards, and other best-selling study aid series help you study for exams while tracking your strengths and weaknesses to help optimize your study time. **OUTLINE TOOL** Most professors will tell you that starting your outline early is key to being successful in your law school classes. The Outline Tool automatically populates your notes and highlights from the e-book into an editable format to accelerate your outline creation and increase study time later in the semester.

Locality Principles in Syntax Apr 23 2020 The architecture of the human language faculty has been one of the main foci of the linguistic research of the last half century. This branch of linguistics, broadly known as Generative Grammar, is concerned with the formulation of explanatory formal accounts of linguistic phenomena with the ulterior goal of gaining insight into the properties of the 'language organ'. The series comprises high quality monographs and collected volumes that address such issues. The topics in this series range from phonology to semantics, from syntax to information structure, from mathematical linguistics to studies of the lexicon.

A Dictionary of Cameroon English Usage Jul 07 2021 This book initiates the process of codification of a postcolonial variety of English, namely Cameroon English. It focuses on the present-day lexicon of this non-native variety of English. English has been in use in this territory for a long period of time and over the years, it has developed some characteristic lexical features which have not as yet been described fully. Previous researchers have been regarding linguistic innovations as cases of lexical errors or Cameroonisms; as a result, teachers and language purists have been discouraging their usage. Today, it is obvious that these innovations have come to stay; they are specific to Cameroon and therefore constitute Cameroon's contribution to the development of world language English. The book is divided into two parts. Part One gives background information on Cameroon (physical and human geography, economy and geopolitics), the language situation in Cameroon (ancestral and vehicular languages, major lingua francas and official languages) and the linguistic features of English in Cameroon

(phonology, grammar and lexicology). Part Two describes the research design (textual material, method of data collection and informants) and provides a lexicographic description (spelling, word formative process, definition) of characteristic Cameroon English lexemes.

[Innovations in Bio-Inspired Computing and Applications](#) Feb 26 2023 This book highlights recent research on bio-inspired computing and its various innovative applications in information and communication technologies. It presents 51 high-quality papers from the 11th International Conference on Innovations in Bio-Inspired Computing and Applications (IBICA 2020) and 10th World Congress on Information and Communication Technologies (WICT 2020), which was held online during December 16-18, 2019. As a premier conference, IBICA-WICT brings together researchers, engineers and practitioners whose work involves bio-inspired computing, computational intelligence and their applications in information security, real-world contexts, etc. Including contributions by authors from 25 countries, the book offers a valuable reference guide for all researchers, students and practitioners in the fields of Computer Science and Engineering.

Mid-Career Faculty Dec 12 2021 Mid-Career Faculty: Trends, Barriers,

and Possibilities is designed for faculty leaders, administration, policymakers, and anyone concerned with the future of higher education. This text offers an examination into an often overlooked period of academic life, that of post-tenure mid-career faculty.

A Formal Theory of Exceptions in Generative Phonology May 05 2021 The architecture of the human language faculty has been one of the main foci of the linguistic research of the last half century. This branch of linguistics, broadly known as Generative Grammar, is concerned with the formulation of explanatory formal accounts of linguistic phenomena with the ulterior goal of gaining insight into the properties of the 'language organ'. The series comprises high quality monographs and collected volumes that address such issues. The topics in this series range from phonology to semantics, from syntax to information structure, from mathematical linguistics to studies of the lexicon.

Greening Libraries Jan 13 2022 It is difficult to turn on the television or read a news story today without learning about how green and sustainable practices are being implemented throughout society. Libraries are not exempt from these broader trends. In some cases, libraries and librarians have been at the forefront of these efforts. Greening Libraries provides library professionals with a collection of articles and papers that serve as a portal to understanding a wide range of green and sustainable practices within libraries and the library profession. The book's articles come from a variety of perspectives on a wide range of topics related to green practices, sustainability and the library profession. Greening Libraries offers an overview of important aspects of the growing green library movement, including, but not limited to, green buildings, alternative energy resources, conservation, green library services and practices, operations, programming, and outreach.

Social Panorama of Latin America 2014 Mar 23 2020 The 2014 edition of Social Panorama of Latin America presents ECLAC measurements for the analysis of income poverty, taking, as well, a multidimensional approach to poverty. Applying these two approaches to data for the countries of the region provides confirmation that despite

the progress made over the past decade, structural poverty is still a feature of Latin American society. In order to contribute to a more comprehensive design of public policies aimed at overcoming poverty and socioeconomic inequality, this edition examines recent trends in social spending and sets out a deeper gap analysis focused on three areas: youth and development, gender inequality in the labour market and urban residential segregation.

Neither Gods nor Emperors Dec 20 2019 "We want neither gods nor emperors", went the words from the Chinese version of The Internationale. Students sang the old socialist song as they gathered in Beijing's Tiananmen Square in the Spring of 1989. Craig Calhoun, a sociologist who witnessed the monumental event, offers a vivid, carefully crafted analysis of the student movement, its complex leadership, its eventual suppression, and its continuing legacy.

World Poverty and Human Rights Feb 20 2020 Thomas Pogge tries to explain how most of the population of this planet can excuse world poverty. A mere one or two % of the wealth of the richer nations could help in eradicating much of the poverty but there's a slim chance of that happening.

Sentencing Law and Policy Aug 20 2022 A leading text in criminal law, co-authored by leading scholars in the field, Sentencing Law and Policy draws from extensive sources to present a comprehensive overview of all aspects of criminal sentencing. Online integration with sentencing commissions, thorough treatment of current case law, and provocative notes and questions, stimulate students to consider connections between disparate institutions and examine the purposes and politics of the criminal justice system. The Third Edition has been updated to include recent developments in sentencing case law and provocative discussions

of policy debates across a wide range of topics, including discretion in sentencing, race, death penalty abolition, state sentencing guidelines, second-look policies, the impact of new technologies, drug courts and much more. Features: Authors are among the leading sentencing scholars in the United States. Demleitner and Berman are editors of the leading sentencing journal, *Federal Sentencing Reporter*. Berman is the blog master of the leading sentencing blog, with huge readership. Intuitive organization tracks the process that occurs in every criminal sentencing. Each chapter draws on the most relevant examples from three distinct sentencing worlds: guideline-determinate, indeterminate, and capital. Wide-ranging source materials, including: U.S. Supreme Court decisions. Cases from state high courts, federal appellate courts, and foreign jurisdictions. Statutes and guidelines provisions. Reports and data from sentencing commissions and other agencies. Problems and questions in text are integrated with websites of sentencing commissions, such as the site for the U.S. Sentencing Commissions (www.ussc.gov). Challenging questions ask students to compare institutions and consider the connections between specific sentencing rules and the purposes and politics of criminal justice, emphasizing the effects of sentencing. Notes tell students directly what are the most common practices in U.S. jurisdictions. Instructors' website (www.sentencingbook.net) provides the Teacher's Manual—available only electronically on the site—with additional teaching materials to be posted as needed. Students' website (www.sentencingbook.com) features longer collections of rules and guidelines, statutes, case studies, recent articles, practice problems, sample exams, and a virtual library. Thoroughly updated, the revised Third Edition includes: New Supreme Court cases, including *Gall*, *Kimbrough*, *Padilla* (6th Amendment), and *Kennedy* (child rape sentencing limits). Policy debates over mass incarceration, the relevance of the budget crisis, and the state-level variation in deincarceration. Shifting authority among key actors in the crack penalty/crack reform debate, including the Fair Sentencing Act (FSA). Expanded core study of discretion in sentencing and attention to race in sentencing, with a close

parquesdecampismo.pt

study of the North Carolina Racial Justice Act and the emergence of and “racial impact statements” about existing systems and proposed legislation in a number of states. Death penalty abolition. Developments in state sentencing guidelines, noting stand-still in new states, and the relevance of the ALI MPC project. Emergence of and “second look” policy discussions, the troubled debate over the theory, operation and impact of parole systems, and the and “supervised release” that has come to replace traditional parole. Discussion of new technologies, developm

Sentencing Matters Jul 19 2022

Structuring Criminal Sentences Jul 27 2020 The former director of the nation's first state sentencing commission describes a new process for sentencing reform that can be used to implement a wide range of sentencing values and provide rational solutions to important policy issues in this softcover text.

Big Data and Networks Technologies Nov 30 2020 This book reviews the state of the art in big data analysis and networks technologies. It addresses a range of issues that pertain to: signal processing, probability models, machine learning, data mining, databases, data engineering, pattern recognition, visualization, predictive analytics, data warehousing, data compression, computer programming, smart cities, networks technologies, etc. Data is becoming an increasingly decisive resource in modern societies, economies, and governmental organizations. In turn, data science inspires novel techniques and theories drawn from mathematics, statistics, information theory, computer science, and the social sciences. All papers presented here are the product of extensive field research involving applications and techniques related to data analysis in general, and to big data and networks technologies in particular. Given its scope, the book will appeal to advanced undergraduate and graduate students, postdoctoral researchers, lecturers and industrial researchers, as well general readers interested in big data analysis and networks technologies.
