Unlock your full potential in AQA GCSE English Language with this revision guide that focuses on the key skills needed to succeed and provides expert advice at every stage from experienced examiner and skills trainer Keith Brindle. - Enables you to practise, revise and reinforce the skills required for each question type by working through structured tasks and clear guidance on what the examiner is looking for - Improves exam skills with 'Test Yourself' sections supported by easy-to-understand mark schemes, annotated and graded example responses, and answers to each question online - Demonstrates how to get the best marks through numerous exam tips and lists of typical mistakes to avoid - Helps you focus on areas for improvement and design your own revision programme using the handy revision planner - Enhances vocabulary by explaining the key terms you need to understand and use in the exams - Breaks the content down into a manageable question-by-question structure that works perfectly alongside the AQA GCSE English Language Grades 1-5 and

5-9 Student's Books Any candidate for the MRCPsych or equivalent postgraduate examinations will feel challenged by the daunting breadth of the syllabus as well as by the level of detail required. Revision Notes in Psychiatry responds to that challenge by comprehensively presenting key up-to-date information across the whole spectrum of psychiatry and its scientific basis, within a clear structure. Since the highly successful publication of the first edition of Revision Notes in Psychiatry, there have been many new discoveries within most fields of psychiatry, and the subsequent updating of the MRCPsych is reflected in the second edition. The newly introduced Specialty Certificate Examinations are a compulsory component of assessment for all UK medical trainees and represent the final examination barrier before being able to apply for consultant positions. This book provides a unique examination-specific revision guide for the SCE in Respiratory Medicine. Comprising of best of five multiple choice questions, detailed answers and separate revision notes, Revision Notes for the Respiratory Medicine Specialty Certificate Examination is the only book you need to prepare for this important examination. Questions are based around clinical scenarios and supplemented with images of radiological investigations such as x-rays and lung function tests. Each question is structured as in the examination itself. The revision notes cover key areas and difficult concepts assessed in the examination, referencing national and international guidelines in topics including respiratory infection, respiratory malignancy, industrial lung disease, sleep disorders, standard respiratory tests and medical statistics. Exam Board: AQA Level: AS/A-level Subject: Biology First Teaching: September 2015 First Exam: June 2016 With My Revision Notes: AQA A level Biology you can: - Manage your own revision with step-by-step support from experienced teacher and examiner Mike Boyle - Apply biological terms accurately with the help of definitions and key words - Plan and pace your revision with the revision planner - Test understanding with questions throughout the

book - Get exam ready with last minute quick quizzes available on the Hodder Education website

Suitable for candidates preparing for the intercollegiate MRCS exam, this title presents the essential facts in each subject area in note form with special attention given to areas that are often poorly understood. This is the only book that MCEM candidates will need to pass the MCEM Part B exam. This revision guide is framed around the most recent CEM syllabus, focusing on all the components of the exam. Each section of the book is tailored to match different elements of the syllabus, allowing candidates to revise efficiently and comprehensively. This concise revision tool is completely up-to-date, reflecting the latest developments in the examination. High quality artwork and a bullet-point style help candidates to absorb information quickly. It also includes over 35 short answer questions enabling candidates to gain invaluable exam practice. Exam tips are included throughout the book to help candidates improve their exam technique. Provides the most up-to-date material, matching the MRCS syllabus, to aid preparation for the MRCS A examinations. The book covers every major subject in the MRCS syllabus; works systematically through every general surgical topic likely to appear in the exam; highlights important principles of Surgery; contains important lists and vital points; is clearly laid out with illustrations to aid understanding. This is the only revision guide you will need to pass the FRCEM Intermediate examination. A new edition of the popular and successful Revision Notes for the MCEM Part B, this guide is mapped directly to the new FRCEM Intermediate syllabus. The book is tailored to match all areas on which you may be tested, allowing candidates to revise accurately and efficiently for this challenging exam. To ensure effective revision, information is presented in concise notes and bullet points with visually memorable tools, such as tables and diagrams. Each chapter contains high-quality example SAQs so candidates can practice their exam technique, and 'key points' and 'exam tips' boxes to highlight the most important information.

Drawing on the authors' experience and expertise, Revision Notes for the FRCEM Intermediate SAQ paper is a trustworthy revision guide for this difficult and clinically focused examination, as well as a useful reference guide for practicing emergency medical doctors. The first revision text aimed specifically at the Knowledge-Based Assessment, Revision Notes for Cardiology exactly maps the core cardiology training curriculum to provide a clearly structured and easily accessible guide to this now-compulsory examination. Revision Notes in Psychiatry, Third Edition continues to provide a clear and contemporary summary of clinical psychiatry and the scientific fundamentals of the discipline. It is an essential study aid for all those preparing for postgraduate examinations in psychiatry and a superb reference for practising psychiatrists. Structured to follow the entire MRCPsych exam syllabus, the book covers the following key areas, along with the CACS examination: Paper 1: General and adult psychiatric disorder History and mental state examination Cognitive assessment Neurology and psychology for psychiatrists Psychopathology History of psychiatry and psychiatric ethics Paper 2: Psychopharmacology Neurobiology for psychiatrists Psychiatric genetics Epidemiology Advanced psychological processes and treatments Paper 3: Critical appraisal Learning disability Child and adolescent psychiatry Old age psychiatry Forensic psychiatry Consultation liaison psychiatry Neuropsychiatry Psychosexual medicine Fully updated with recent references and many additional figures, this third edition features a wealth of new material (including NICE guidelines) and updates the DSM-IV-TR criteria to the new DSM-5. Designed to meet the needs of today's candidates, Revision Notes in Psychiatry, Third Edition continues to provide a source of trusted expert information to ensure examination success for all those taking higher examinations in psychiatry. Revision Notes in Intensive Care Medicine is a key resource for candidates preparing for postgraduate intensive care examinations. Mapped to the

FFICM, EDIC and FCICM syllabuses, this title ensures candidates have all the information needed to prepare for their examinations. Information is presented in concise note form and bullet points with visually memorable tools, such as tables and diagrams, making revising and retaining key facts easier. Chapters are arranged into physiological systems, such as 'Respiratory Intensive Care' and 'Obstetric Intensive Care', and are subdivided into major clinical issues within each chapter so specific areas of further study can be found easily. Drawing from the authors' experiences as successful candidates, and carefully reviewed by consultants, Revision Notes in Intensive Care Medicine provides the foundation for postgraduate intensive care exam revision. This work summarises the core knowledge required for each of the six test papers that make up the exam, all in highly succinct bullet point format. Designed to help medical students through their exams. Built around the successful 'Essential Revision Notes for MRCP', this title focuses on what is essential learning for medical undergraduates and gives readers an 'all round' knowledge of medicine at this level. This book is aimed at GCSE students of English Literature who are studying Robert Cormier's Heroes. The focus is on what examiners are looking for and here you will find each chapter covered in detail. I hope this will help you and be a valuable tool in your studies and revision. This is the only revision guide you will need to pass the FRCEM Intermediate examination. A new edition of the popular and successful Revision Notes for the MCEM Part B, this guide is mapped directly to the new FRCEM Intermediate syllabus. The book is tailored to match all areas on which you may be tested, allowing candidates to revise accurately and efficiently for this challenging exam. To ensure effective revision, information is presented in concise notes and bullet points with visually memorable tools, such as tables and diagrams. Each chapter contains high-quality example SAQs so candidates can practice their exam technique, and 'key points' and 'exam tips' boxes to highlight the

most important information. Drawing on the authors' experience and expertise, Revision Notes for the FRC EM Intermediate SAQ paper is a trustworthy revision guide for this difficult and clinically focused examination, as well as a useful reference guide for practicing emergency medical doctors. Designed for the MRCPsych Parts 1 and 2, this book is a helpful aid to candidates both before and after the exam. It covers basic science and clinical psychology and contains 30 chapters that follow the MRCPsych Parts 1 and 2 syllabuses. Offers an introduction covering the MRCS exam with particular reference to OSCEs; an overview of clinical skills in history taking and physical examination; chapters covering sections of the exam with popular cases in the OSCE format at the end of each chapter; and, a layout with colour images. "CSA Revision Notes for the MRCP" provides the reader with an effective framework for preparing for the Clinical Skills Assessment exam. Written by a recently-qualified doctor with fresh memories of the CSA exam, the book is an essential aid for anyone getting ready to sit the exam. The book is divided into medical subject areas and each section works through the personal, data gathering, diagnostic and clinical management skills required to pass the CSA exam. Each section finishes with role play scenarios so you can test your abilities with a colleague. The book is an essential revision source for anyone preparing for the CSA exam. The MRCOG Part 2 examination is perhaps one of the hardest professional examinations for the medical profession. This text outlines essential examination knowledge. It offers the reader insight and knowledge on each area of obstetrics and gynaecology. It provides notes on audit, development of protocols, incident reporting and risk management. This book is aimed at GCSE students of English Literature who are studying Robert Louis Stevenson's *The Strange Case of Dr Jekyll and Mr Hyde*. The focus is on what examiners are looking for, especially since the changes to the curriculum in 2015, and here you will find each chapter covered in detail. I hope this will help

you and be a valuable tool in your studies and revision. This book is a comprehensive revision guide for the MCEM Part B examination. The content is based on the College of Emergency Medicine curriculum and provides candidates with a concise and complete guide for exam preparation. This, along with Book 2, is the essential revision book for candidates preparing for the Intercollegiate FRCS (Urol) examination. The new edition of this work is the only book that MCEM candidates will need to pass the MCEM Part A exam This concise revision text brings together the fundamentals of the basic sciences required for Obstetrics and Gynaecology trainees to pass the MRCOG Part 1 exam. A note-style format and over 100 illustrations make this the ideal revision guide to passing the exam. This book is aimed at GCSE students of English Literature who are studying John Steinbeck's Of Mice and Men. The focus is on what examiners are looking for and here you will find each chapter covered in detail. In the face of information overload when revising for your final exams, what you want is a revision book that provides all the key facts you need to know and none that you don't. Complete Revision Notes for Medical and Surgical Finals does just that, presenting information in a stimulating way, which in turn enables easy recall. Structured by medical and surgical specialties, the contents are organised in a weighted fashion to reflect coverage in undergraduate curricula. With pharmacology and pathology integrated throughout, this second edition covers all the key topics in: Medicine * Surgery * Paediatrics * Obstetrics & Gynaecology * Psychiatry * Orthopaedics * ENT * Urology * Ophthalmology * Oncology * Public Health. Effective use is made of student-friendly codes and bullet points for easy information retrieval, and popular features including textboxes, summary tables and clear and reproducible line diagrams have been retained and improved. Fully revised and updated with the latest medical information, and including new illustrations, Complete Revision Notes for Medical and Surgical Finals continues to provide an accessible and stimulating

route to exam success. If you know what is in this book then you will know enough to pass your finals. First published as Mastering the DRCOG, this highly acclaimed revision text has been completely updated and revised to follow the syllabus of the DRCOG examination. This book: Provides relevant content arranged in seven chapters, following the DRCOG curriculum Delivers useful information such as references to guidelines and research Presents content r
